We never till recently saw the utility

We never till recently saw the utility of tramps. Always the charges for footmen on the river bridges have been regarded as outrageous—but since Wheeling has established her soup house it is estimated that the number of unfortunate pilgrims seat free, by official authority, back across the bridges that the company won't be able to declare a dividend for 10 years to come; and the result is foot travel for the past year won't average more than a penny. Hurrah for the tramps!

SOMETHING NEW IN THE WAY OF CORN STIELLERS.—There was an exhibition yesterday in front of the McLure House, of a new corn sheller called the "Prairie," which our readers have seen advertised in our columns for a couple of days past. It is about as simple and compact a machine as it is possible to get up, and we should judge about the cheapest practicable machine going. It is attracting considerable attention, and cheapest preacticable machine going. It is attracting considerable attention, and Messers Delano & Co., the exhibitors, who also manufacture them quite extensively in Detroit, Mich., claim to have sold over two thousand from that point this season. They are also manufactured in St. Louis, and by the Ames Plow Co., of Boston; and it has taken the first premium at over a dozen, State fairs. Delano & Co. are offering a ome territory for sale that they cannot handle themselves.

BAKER AND FARRON.—The well known omedians, Messrs. Baker and Farran, comedians, Messra. Baker and Farran, will commence a week's engagement in the Wheeling Opera House on the 15th inst.—one week from Monday next. These artists will appear in their world-renowned specialty, "Chris and Lena," and close their engagement in the new and popular piece, "Cut Glove." We believe Messra. Baker and Farron have never appeared in this city, but they are probably known to the Wheeling public through newspaper notices. They will be supported by Manager Sargent's Columbus Athenseum dramatic company, which played here two weeks last fall.

SPELLING MATCH NEXT WEEK .- Hu SPELLING MATCH NEXT WEEK.—Human fashions change, but they change
only to return. To a close observer of
society nothing is more obvious than that
fashions move in a circle, and as the circle is in constant motion, the same fashions return. The women have been going
through the same fashions, in dress, that
their mothers had. These reflections are
suggested by the fact that Wheeling is at
last to enjoy a real old-fashioned spelling
match. At a business meeting in the

Thursday evening, it was decided Thomson M. E. Church (Island) on Thursday evening, it was decided to secure Washington Hall for one evening next week, for the purpose of having a spelling match. A committee was appointed to make the necessary preparations, and as C. H. Collier, Esq., is chairman of the committee, we have no doubt the "match" will be a success, as that gentleman's energy and experience are well known to the public. The proceeds of the entertainment will be donated to the Church. We do not know whether the committee have yet decided upon any particular programms. We notice that Webster's dictionary is generally given as a prize to—the best generally given as a prize to—the best speller upon occasions of this kind, but it might be well if such a prize is con-templated to give it to the worst, for he

Seriously Burned.—A little daughter of Michael Coyle, who lives in Centre Wheeling and clerks in Ferrell's store, was very badly burned yesterday morning by her clothes taking fire while she was standing in front of the grate. The little girl had just got out of bed, and was warming herself before the fire. As soon as she discovered that her clothes were burning, she ran into another room where a member of the family was sleeping, who with difficulty extinguished the flames. The little one's clothing was nearly burned off of her, and her shoulders, back and hips were badly burned. A physician was called, who relieved the sufferer as much as possible.

DEAFNESS

Dr. Hunter respectfully invites all persons afflicted with deafness, (impairment or loss of hearing) or any disease of the ear, to call on him for an examination, which will be made free of charge.

For nearly fifteen years Dr. Hunter has devoted his attention almost exclu sively to this class of diseases, and cured thousands of persons who would otherwise have gone on through life deprived of this function.

Our most skillful general practitioners seldom undertake to treat deafness. The ear can be safely and successfully treated by specialists only, who have made this organ a special study for years.

Dr. Hunter has a number of peculiar instruments for examining and treating the ear. One of them has a reflector at tached to it for the purpose of concen trating and throwing the rays of light into the outer passage into the drum, so as to ascertain their condition,-to see if the passage is obstructed or the car drun ulcerated, indurated, thickened or perforated. Another is used for the purpose of forcing air through the tubes which lead from from the throat to the inner ear, to ascertain whether it is open o alosed. Medicated air, gas or vapor is also applied by this instrument in this manner

Catarrh of the nose and throat very frequently extends along these tubes, pro-ducing singing, buzzing and humming in the ears and loss of hearing. After a while the catarrh becomes established in the inner ear, and then ulceration of the drum may soon follow. As a result of the disease of the inner ear and drum, you soon have a hole made through the

Again a cold is very frequently a cause of deafness. The person afflicted recovers partially and finds that his hearing is not as good as before the attack. He remains in this condition for a longer or shorter time, and then commences to grow worse gradually, until he becomes deaf." Treatment by a skillful ear sur-geon will restore all such cases.

There are thousands passing through various stages of these? forms of deafness who can be cured. If not cured most of them will loose hearing entirely.

All persons afflicted with such forms of lisease, are respectfully invited to call on

courteously and examined carefully. No instruments are put into the ear and not a praticle of pain or distress is cansed by either his examinations or treatment. Dr. Hunter has restored the hearing o thousands of persons, and all who apply
